February 7, 2017

To the MAEOE Green School Certification Committee:

This letter serves as confirmation that Genise Fleming, a teacher at James M. Bennett High School, completed 6 hours of professional development with Pickering Creek Audubon Center's *Audubon Stream Exploration and Restoration* program in 2016.

Genise attended three after-school trainings on February 9, February 16, and March 1, 2016. Each of these trainings were two hours and focused on developing student-led action projects to improve local stream and creek health.

Please don't hesitate to contact me if you have any questions or need additional information. I can be reached at 410-822-4903 or at [jbunting@audubon.org](mailto:jbunting@audubon.org).

Sincerely,

Jaime Bunting
